2. Historic Preservation Grants – Council Member Link
   Council Member Link will gather feedback from the Mayor and Town Council (MTC)
   regarding the proposed procedures for the application, approval, and disbursement of
   historic preservation grants as proposed by the Historic District Commission (HDC).

   The HDC proposed the following:

   *As* an incentive to homeowners *within the Historic District to defray the cost
   associated with the need to conform to the historic preservation guidelines, the
   Historic District Commission has available a grant equal to 10% of the total
   amount of a project less than $5000.
The Town ordinance says that persons eligible to receive grants shall be owners of owner-occupied residential property for whom the requirement to conform with the historic preservation standards represents a hardship, as determined by the Commission. The HDC does not want to be in the business of evaluating income to determine financial hardship. The proposed eligibility could also have budget implications. The MTC may want to recommend that there be a cap on the amount available for historic preservation grants. The MTC should identify issues that it would like the HDC to address.
